

Downtown Madison, Inc. (DMI) position on the U.S. Post Office Downtown Location

February 9, 2016

Downtown Madison, Inc. (DMI) is a membership/advocacy organization representing 500 business members. DMI works on the health and vitality of downtown Madison.

The U.S. Post Office location (Madison Municipal Building) in the center of downtown Madison has been an important resource for downtown residents and workers for almost 90 years. In those early years, the downtown was the center of all commerce and was able to serve the Madison community. Times have changed and our city had expanded. However, our downtown is still the center of commerce for the City of Madison with the UW-Madison, state/county/city government and thousands of new and current residents in downtown Madison.

A centrally located U.S. Post Office is part of a healthy and vital downtown Madison. The DMI Board of Directors strongly recommends the continuation of a Post Office located in the central business district.
